

**AUGUST 2005**

## **FACULTY MEMBERS RECEIVE COVETED AWARDS**

For the first time in Fresno State history, three faculty members have won the prestigious Fulbright Senior Specialist award in a single year. The latest to receive the award is Dr. Benjamin Boone, assistant professor of music who is sharing his expertise this summer at the A. Russo Balti State University in Moldova.

Earlier this year, specialist awards were announced for business professor Dr. William Mallios and health science professor Dr. Miguel Perez. The Fulbright program is the brainchild of Senator J. William Fulbright of Arkansas and has been a vehicle for promoting international educational exchange between the United States and other countries for more than 50 years. The program is sponsored by the U.S. Department of State, Bureau of Educational and Cultural Affairs.
